Firm Contact: George Shahinian

"Based in the Sydney CBD, Economos is a business focused accounting and financial services firm that has grown to a BRW top 100 accounting firm while remaining true to our ethos – getting the job done for our clients. We are personally invested in our client's growth and success and we are committed to providing the support they need locally and internationally. Becoming an Abacus Worldwide member allows our firm to align with other likeminded firms globally in both the accounting and legal disciplines. We are happy to be part of this dynamic association and are confident that our clients will also benefit from the relationships we forge." George Shahinian, Managing Partner, Economos Group – Chartered Accountants

"Sydney is a strategic location for our members doing business in Asia and Oceania and Abacus conducted a targeted search for the right firm to set the tone in this regional capital city. We are happy to welcome Economos as our newest accounting firm member in Sydney. With their expertise in Real Estate and Development, Manufacturing, and Information Technology, I am certain they will bring value to the association and to clients working in Australia. I look forward to working with them and to further developing the region." Julio Gabay, President and CEO, Abacus Worldwide
